Details: Join other slot car enthusiasts at the Club Auction, the main annual event for the Australian Scalextric Racing & Collecting Club (A.S.R.C.C.).

Some prior year Auction Lots

We will have another varied and interesting auction with 250 lots.

It is a fast paced, interesting and friendly day as well as a great opportunity to sell or buy slot cars at competitive prices.

Always something special and of interest for any enthusiast.

Food and drink available on the day. Covid requirements as per Government rules.

Please note: Cash only, no credit facilities are available.
With 250 lots the auction is expected to finish at 3pm.

Contact Details: Dominic Grimes, Club President, phone 0402 212 937 or email dominic@scalextricaustralia.com.

Please see Club Lines, Website and Facebook in coming months for further updates!

2023 Sydney Club Member Auction Sunday 27 August: Second Update

We have received feedback by Club Members it would be great to know the lots for the Auction earlier. With the Club Committee's interested to get as many Members to the auction as possible we would like to advise some lots very early. If a serious collector these could be enough to warrant attending!

So the auction has the first confirmed lots. These are from Chris Lay's collection that his family have kindly agreed to sell in the auction. This is appreciated as it offers Club Members a great opportunity to purchase some very rare and interesting cars. It also helps the appeal of attending the Auction and hopefully benefits Club fundraising with a number selling.

Here we have 45 of the 250 lots that will be auctioned on 27th August 2023:

The C3077 Ford Falcon Dunlop Richards #6 Steve Richards (file photo)

The E5 Aston Martin DB4 Marshal Car getting a test on a nine volt battery with the roof light working well as well as good speed from the motor.

The Scalextric C96 Auto Union Race Tuned.

The underside of the 1/24 scale Scalextric 24C/500 Lotus 38 right and Scalextric 24C/501 Ferrari below. The workmanship in these cars from the 1960's is impressive. Both run very strongly as tested on a nine volt battery (as did all the cars shown here).

Cheers
Dominic & Committee
