

Update: 2024 Club Member Auction on Sunday 11th August

With the Melbourne swapmeet a huge success and enjoyable social event, we are ramping up the preparation for the Club Member Auction on Sunday 11th August. We really want to encourage further growth in Member attendance this year after the 20% growth last year to 49 people. The Auction is an important historical Member-focused event and Club fundraiser.

Update on arrangements and lead up:

- Expecting 222 lots like we had in 2023 with mix of desirable and bargains.
- We appreciate the sellers who have been in contact to offer lots. These include JohnB, RobT, GregB, PeteD, DominicG and HugoF.
- Sellers we will need to finalise lot listings in the first three weeks of June so Dominic will be in touch and get your lots organised (thank you for the photos and lists being received already).
- Expected timings are revised and now see the aim for full auction lot list in July Club Lines that will arrive a bit later than usual, about 11th July.
 - July CL: Final auction list with some photos. Attendee update on specific details. If needed, call for more volunteers.
 - August CL: Final arrangements included. More photos.

We suggest:

- If you are from interstate then consider a Sydney weekend visit, &
- If you are interested in a great day buying some cars, put it in your calendar!

We thought we would include some photos of items in the Auction to tempt your interest. This Scalextric light box as used in Retail outlets, look great amongst your display by home track will be a lot. Whilst lightly damaged at top left, see photo below, it does not really affect the operation. Will likely need new light tube.
